

THIRD WAVE FEMINISTS WILL EITHER REFORM OR DIE OUT

Revolution or evolution? Masculists are not sadists, but are realists. If the feminazis do not give up their privileges in the divorce courts, thus continuing their financial massacring and destruction of the lives of one father in four, then responsible males, masculists soldiers, will, in the limit, kill them. We will NOT TOLERATE that they indirectly wipe out whole populations, as they are currently doing, causing in many western countries now, two thirds of young men under 35 to reject marriage, reject paternity (the huge issue) and to spend their money on themselves.

These young men are reacting to the toxicity of the divorce courts, taken over by the hated fluffie feminist hypocrites, who in their female 10% smaller brained irresponsibility and short sightedness are indirectly wiping out whole populations, i.e. they have become indirect genociders, and hence have to be stopped, with bullets, if all other, more benign, means fail. The

masculists will use the more benign approaches initially, e.g. by wiping out belief in third wave feminism, i.e. the brand of feminism which aims to empower women at men's expense, in which women's power gain, is men's power loss, treating the acquisition of power as a zero sum game – i.e. the gain of one group is the loss of the other's.

When it comes to who has the power in the divorce courts, in many western countries (unlike China, where custody of kids goes mostly to the father, who has the money to support them) it is the hated feminazis who have the lion's share. They exert this power with their monoconscious feminazi attitudes, feeling their gender bias, their anger bias, knowing nothing of masculist ideas, being oblivious to how women oppress men, and that women oppress men far worse than vice versa, given women's oppression of men is so sustained, so extensive, lasting decades, e.g. women's financial parasitism of men, women's manslavery of men, the fluffie feminist hypocrisy in the divorce courts, women's red pill nature (not loving men but rather loving men's sexploitability, loving what men can do for women, rather than the men for themselves, etc).

These monoconscious third wave feminazis then treat men with a sense of revenge, that their feminist doctrines teach them, that men are the enemy, men are toxic, men are to be fought against, and they do, they abuse men, they rob men, discard men as exploitable cash machines, financially destroying them, and

ruining men's lives at the horrible rate of one father in four, a casualty rate for men far worse than in a MAJOR WAR!

In many western countries, the divorce rate is about a half, and in half of those divorces, they are vindictive, with the divorcing wife behaving as a short sighted, vindictive, sadistic, feminazi bitch, whose feelings, the feminazi bitch controlled divorce courts allow her to express in practice.

Divorcing fathers are crucified in the hated feminazi divorce courts, having their kids ripped away from them with 90% probability, in many countries, losing his house to his fluffie ex-wife so she can raise HER kids in it, losing half his stuff to her, no matter how economically incompetent she was or how little she bothered to acquire a career competent education to give her a well paying job so that she could be a FIP woman, taking financial responsibility for her own life, and not expecting fluffie style, to be able to parasite off the money of a man.

The divorcing father, will be forced by the hated fluffie feminazi divorce court lawyers and judges to pay child support to his kids he will barely see, and often forced to pay alimony for life to his fluffie ex-wife, so that she can continue to parasite off his money after the divorce the way she did before the divorce, with no moral nor legal obligation on her to get off her fat parasitic arse and FIP up (become a FIP = financially independent person), i.e. to grow up, to become a moral, adult, human being, instead of remaining a hated immoral, parasitic, manslaving vermin fluffie.

Reform of the divorce courts screams out for attention. The masculists are leading the war against them, telling the feminazis that responsible males, masculist soldiers, will NOT TOLERATE that the feminazis indirectly wipe out whole populations. Masculist soldiers will kill them first, for the sake of preventing the hated feminazis from being the genociders that they currently are.

Now that men are being more exposed to masculist ideas, masculist anger, masculist rhetoric, masculist hatred, men are speaking up much more in public and haranguing the hated feminazis, blasting them out of the room, with strong verbal male venom, clashing verbally violently with them when they come across feminazi attitudes that indirectly cause massive gender damage to men, especially in the divorce courts, or when women reject the legal passage of the Parer (paternity rejection right) which if passed would force women to grow up, to become FIPs, a prospect that terrifies fluffies, scaring them shitless.

The last thing fluffies want is to have to grow up, to take responsibility for their own lives, running the risk of failure, the way men have always done. These fluffie parasites, these existential cowards would far prefer to parasite off men, wiggling their twots at men, to extract resources from them, to exploit them, to fuck them young, so that men's frontal lobes switch off (which control planning and critical thinking) making these men putty to be manipulated by conniving fluffies to

extract money from men, so that these gullible young males, utterly ignorant of masculist ideas, are manipulated into the role of being a manslave to a fluffie parasite, working for her, giving his financial life for her, and later, a decade after his marriage, once she has her two kids, and the house, she divorces him, dragging him through the fluffie feminist hypocrite controlled divorce courts, taking his kids, his money, his life.

There is such a hatred, such a murderous bitterness, coming from men against the hated fluffie feminist hypocrites, the third wave feminazis, who show their true female attitudes towards men, seeing men as mere cash machines, to be sexexploited, manipulated, manslaved, that the masculists are talking increasingly about a sex war, in which the gender politicians are assassinated for creating these deeply misandrist gender laws in the first place, and murdering thousands of feminazi divorce court lawyers and judges for committing this huge gender crime against men.

Common sense says that such a sex war is obviously the lesser evil than doing nothing, continuing the gender status quo in the divorce courts, not bringing in the Parer, etc, so that whole populations DIE OUT! Masculist theorists, like myself, obviously choose a sex war over total population annihilation.

But this stark polarization is not necessary. There are more benign ways to solve these massive gender issues, to menfair the gender laws, bring in the Parer, remove legal and social discriminations against men across the board.

One alternative is to destroy third wave feminism, by making it so hated by BOTH sexes, that it just dies out, no longer believed in, the way witchcraft or negro slavery is no longer believed in in the 21st century.

With large numbers of both sexes hating third wave feminism, and with the term “third wave feminism” or its synonyms, so associated with contempt and distaste, women won’t dare become third wave feminists, otherwise they will pay such a heavy price, and will reject it.

The masculists hate third wave feminazis mainly for their sadistic behavior in the divorce courts against men, seeing men as cash machines to be abused by feminazi divorce court judges and lawyers. The masculists are now telling young women, that they too should hate the third wave feminazis, because these feminazi sadists are the root cause why young women cannot persuade quality young men to give them their sperm, making these young women babyless.

Young women are now really panicking as they become aware that they really are not going to have quality babies, because the feminazis have made divorce so toxic for men, that 2/3 of young men, and perhaps now over 90% of quality men (i.e. in the top 20% of males in general attractiveness, as judged by women – i.e. 80% of women want to mate with the top 20% of men, the “80-20 rule”) refuse to marry, reject paternity, and only pump and dump young women.

With both sexes increasingly hating the third wave feminazis, third wave feminism is doomed. It wont be able to withstand the massive ideological and moral onslaught coming from BOTH sexes, with the men seeing the hated third wave feminazis as indirect genociders, and the young women seeing the hated third wave feminazis as infanticiders, i.e. causing young men to refuse to give young women their sperm, due to the toxicity of the divorce courts controlled by the third wave feminazis.

So, this combined masculist, female masculist ideological and moral onslaught against the third wave feminists is a very definite option, and is one that will be increasingly pursued by the masculists and by masculist theorists.

However, there is another option, and that is that the third wave feminists REFORM themselves, so that they compromise some of their goals, so as to assuage the hatred of both the masculists and the female masculists, so that third wave feminism can survive.

If not, if the third wave feminists do not reform, do not compromise with the demands of the masculists and the female masculists, then they will die out, either by being killed by masculist soldiers, or, as is more likely, a lot more likely, being pushed into oblivion by a massive moral and psychological pressure to abandon their deeply misandrist attitudes, particularly in the divorce courts and rejecting the Parer, etc.

So, just what is this further option? How would the third wave feminists need to reform, so that the masculists and female masculists become satisfied and stop their sex war against them, whether in military or moral form?

So here is a check list of demands coming from the masculists, on what third wave feminists need to change, to compromise on, so that masculism, as a moral and political ideology, could afford to die off, gathering dust on the history shelves in libraries.

What do the masculists want most? Obviously, reform of the divorce courts, so the gender politicians, under combined voting pressure from the masculists and female masculists (who together amount to about 60% of the adult voting public) are forced to menfair the gender laws.

Extensive social engineering will need to be undertaken, so that young women are socialized by parents and taught by teachers to FIP up, become FIPs, by getting a career competent education at high school and college, making the study of calculus and a science at high school compulsory, as was the case in the old soviet Russia, so that young women are not excluded from studying STEM (science, tech, engineering, and math) nor the professions at college, so that they become career competent, earning good money as adults, not being hated fluffie parasites, living off the money of gullible manslaves, whose supply the masculists and MGTOWs (men going their own way) are rapidly causing to dry up, as the masculists and MGTOWs keep

getting the masculist/MGTOW message out to men via the internet.

Masculist and MGTOW moral pressure on young women, with masculist slogans such as “Be FIP or be manless!” or “No calculus, no baby!” will cause young women to FIP up and study the analytic subjects (i.e. math and the sciences) rather than the fluffie crap majors (i.e. easier, lazier, soft option majors like English lit, languages, history etc) which the economy does not value and pays low salaries for.

The gender politicians need to legislate the Parer, so that men are no longer subject to the greatest sexual discrimination that exists, i.e. that men do NOT have the same right as women to reject an unwanted pregnancy. The second wave feminists gave women the Marer (= maternity rejection right), so that a woman has the legal right to reject an unwanted pregnancy, a right that men do not have in any country on earth, a blatant, glaring, sexual discrimination against men.

The divorce laws will need to be extensively reformed, e.g. custody of the kids will need to be made JOINT, by default, so that no matter what happens to the man in a divorce court, he gets to keep his children, so that today’s young men will no longer have to argue “If I face a ONE IN FOUR chance of losing my kids via a fluffie feminist hypocrite dominated divorce court system, then WHY HAVE KIDS AT ALL!?” Alimony will need to be thrown out. The original owner(s) of the house gets to keep it.

Governments will need to socially engineer young women to become FIPs, so positive discrimination in terms of paying higher salaries to male primary school teachers to attract more men to teach in primary schools, so that very young boys are not totally alienated by female giants, i.e. female primary school teachers, as is the case today, so that young boys are given male role models, so that young boys can feel good about themselves, as males, instead of being brainwashed by monoconscious primary school teacher feminazi bitches, who teach these young boys that males are toxic. It is such a feminazi doctrine, i.e. that men are toxic, that is itself toxic. The masculists see feminazis as toxic, which is why they are labeled feminazis in the first place, expressing masculist and MGTOW hatred of them, for their massive gender crimes against men.

The media need to be educated far more extensively into masculist ideas, so that they spread these profoundly important social and political ideas to the millions, the billions, so that men are intellectually armed with masculist ideas, and masculist rhetoric, so that feminazis don't dare make misandrist statements in public, through fear of being verbally harangued by extremely angry and impatient masculists in the audience, who will verbally crucify such feminazis bitches, calling them "Genociders, misandrist shits, you'll be shot if you continue wiping out whole populations, etc." i.e. vilified in public, and as the masculist temperature keeps rising against them, it will

become the new norm for extremely angry masculists to bitch slap these feminazis to oblivion, shutting them up.

Highly articulate masculists need to get on the media and defeat the best and hence inferior debaters of the feminazis, pointing out to the general public that third wave feminism is indirect genocide, wiping out whole populations, so has to be stopped, and by pointing out to young women, that they can equate third wave feminism with babylessness, by telling them that the root cause why young men refuse to give them their sperm, is due to the hated fluffie feminazi hypocrites having taken over the divorce courts, making marriage and paternity so toxic for males.

Once the above moral and political pressure has mounted enough for the feminazis to fear for their ideology's and movement's survival, then they need to start compromising.

They will have to accept the rise of the masculists, abandoning their traditional monopoly over gender discourse, accepting that from now on, they will have to share the gender stage with the masculists, and since masculists are men, and hence genetically superior to women, the masculists will soon dominate gender politics, since whenever men turn their minds to anything, they always dominate it, because the geni are males, and men have much higher testosterone levels, making them more aggressive, more ambitious, more dogged, more persistent, and hence achieve far more than women, whose performance track record is greatly inferior to men's, hence the existence of the

patriarchy, a male dominated world, in which women achieve far less, far far less.

As a masculist theorist, I can see third wave feminism surviving in a modified form. For masculists, second wave feminism is a prerequisite for women to be able to be effective FIPs. To be able to effectively FIP up, a woman needs to be given equal opportunities to succeed as a careerist. Similarly with certain aspects of third wave feminism, i.e. the empowerment of women.

I have nothing against the empowerment of women, so long as it is not at men's expense, in the sense of feminists pushing for equal outcomes, rather than equal opportunities with men. Equal outcomes, i.e. a 50-50 ratio of women to men in positions of power, in the parliaments, in company board rooms, etc will only discriminate against men, since men are genetically superior to women, as a result of women's hypergamous instinct of wanting to mate UP, i.e. with a genetically superior male who will give her kids superior DNA, which is good for the species, so was inherited. It is women who indirectly created the patriarchy, i.e. general male dominance across the board, as a side effect of women's hypergamous instinct.

By all means, give women equal opportunities to succeed in their careers, giving that, even with women having their two kids, they still have a career window of some half a century, so now that women CAN work, they MUST work, since anything

else is manslavery, parasitism off men's labor, and is to be spat at.

So this kind of equal opportunities empowerment of women, which is still third wave feminism of a sort, is to be encouraged by the masculists, because it will make women better FIPs, who in turn will liberate men from traditional manslavery, that the masculists aim to wipe out this century, worldwide. The very subtitle of my book spells this out - "MASCULISM, Men's Rebellion Against Being Manslaves to Women."

This compromised form of third wave feminism, is acceptable to men, to masculists, and female masculists, and is to be encouraged, but if today's third wave feminists push for equal OUTCOMES with men, i.e. effectively female quotas, that will discriminate against men, then the masculists will harangue them out of the room, with verbally violent abuse, vitriol, bitch slaps and male hatred, because masculists are absolutely FED UP with feminazi discrimination against men, especially the fluffie feminist hypocrisy against men, with their monoconscious ignorance of how heavily fluffies oppress men, with their financial parasitism, their manslavery etc.

So, given the above, it should be clear that third wave feminists have a choice. They can reform their definition of what empowerment of women means, i.e. abandoning their push for equality of OUTCOMES (with their women quotas) and accept equal opportunities for women, giving them equal opportunities to perform at the limits of their genetically determined abilities,

OR they will be crushed out of existence by the combined moral and political pressures coming from the masculists and female masculists, both of whom will hate the third wave feminazis, with the masculists seeing them as indirect genociders, and the female masculists seeing them as indirect infanticiders, depriving young women from having quality babies fathered by quality young men.

So, to the more moderate women reading this, I leave you with a masculist slogan - "Women, be fair to men, or men will be unfair to women!" i.e. in the limit, if men continue to be financially crucified in the feminazi controlled divorce courts, then responsible males, masculist soldiers, will kill these feminazi vermin in the sex war. Women's right to vote will be taken away from them. The gender laws will be menfaired, and women will fall back into the inferior status they have had for millions of years.

Since the vast majority of women do not want such a fate, it is in women's self interest to do whatever it takes to help men, by becoming female masculists, to help menfair the gender laws, to help bring in the Parer, to help remove social and legal discriminations against men, across the board.
