This flyer lists and elaborates on the major goals of the masculist movement. Masculism has many goals, but I'll give only a handful (i.e. 10) here, so as to keep the size of this flyer to a reasonable length. They are the most important goals, that nearly all masculists, of various shades, want to see achieved.

I'll begin by listing them, in bulleted form, and will then elaborate of them later. Here is a list of what the masculists really want to achieve, in political terms.

1. The Liberation of Men from Female Manslavery, by the FIPping of Women.
2. The Menfairing of the Gender Laws, especially in the Divorce Courts, and the Legislation of the Parer (Paternity Rejection Right).

3. The Education of Men in Western Countries of the Toxicity of Divorce and hence Marriage, Pushing them not to Marry, not to be Fathers.
4. Putting Strong Moral Pressure on Young Women to FIP up, or be Punished by not Getting a Man.
5. Giving Men Masculist Intellectual Tools to Hit Back at the Female Chauvinism of Monoconscious Feminism.
6. Restoring Men's Self Image by Using Science to Prove that Men are the Superior Sex.
7. Pushing Society to Become Biconscious so that Whole Populations Don't Get Wiped Out.
8. Restoring the Gender Political Pendulum, so that Society Can Heal from the Wounds Inflicted by Monoconscious Feminism.
9. Setting Up Masculist Groups in Every High School and University.
10. Making Masculism as Big as Feminism, Telling the Other Half of the Gender Story.

There are many other goals of the masculists that I could mention. I have made nearly 350 videos on masculist themes, at the time of the writing of this flyer, so there are plenty of other topics that could be added to the above list.

I now elaborate on the above list, item by item, below.

1. The Liberation of Men from Female Manslavery, by the FIPping of Women.

Explicit in the very title of my book on masculism is the idea that men need to be liberated from female manslavery. The book's title is "MASCULISM : Men's Rebellion Against Being Manslaves to Women, An e-Textbook of 300+ Masculist Flyers for Men's Studies Courses."

Masculism is men's lib. Monoconscious feminists (i.e. who have only had their feminist consciousness raised, and not their masculist consciousness) will probably scoff at the idea of men's lib, with quips such as "What do men have to be liberated from?"

The fact that feminists tend to react this way, shows how deeply ignorant they are of how women oppress men, for example with women's financial parasitism of men, women's manslavery, the fluffie feminist hypocrisy in the divorce courts that they have taken over, women's red pill nature (i.e. not loving men for themselves, but only as sexploitable cash machines, who are

only loved by women if men are useful to women, otherwise dumped in favor of a more sexploitable man.)

It is men who have liberated women, i.e. from female household drudgery, by giving women household gadgets, higher education, the contraceptive pill (probably the greatest social revolution in history), modern medicine, a female life expectancy into the 80s, etc.

Thanks to the pill, women now routinely have 0, 1, or 2 kids, but live into their 80s, so even those women who have their 2 kids, so as not to contribute to the crash of whole populations, still have a career window of some half a century, so that men can be freed from manslavery, by not having to work for a woman for most of his life.

Masculism is men's lib in the sense of freeing men from being slaves to women, working for women, so that a woman can stay at home, in a house that her husband pays for, keeping her and her kids financially afloat, since it is almost impossible for a woman to have a full time career and be a mother of small children at the same time.

The masculists tell women "Now that women CAN work, they MUST work! Anything else is parasitism off the labor of men!" So women have to FIP up, i.e. become FIPs (a very important concept for the masculists, meaning "financially independent persons") or be punished by men by not getting one.

Masculists make a historical analogy between the negro slavery in the US in the 1800s and manslavery in the 2000s. The abolitionists of the 1800s in the US, wanted to abolish negro slavery, which they saw as a moral abomination. The masculists of the 2000s want to abolish manslavery, which they see as a moral abomination, by forcing women to FIP up, by bothering to get a career competent education at high school and college.

There is a long way to go, because in practice, in most western countries, three quarters of young women at age 16, choose to become what the masculists call “fluffie crappers,” i.e. studying fluffie crap, i.e. the soft option, the intellectually easy, intellectually lazy, option of memory based majors, instead of analytically based majors, such as math and the sciences, which would give them diplomas and skills that the economy values, and pays well for, so that these future fluffies (a masculist term for a traditional woman who expects to be able to parasite off the money of a man) end up becoming fluffie parasites as adults, and hence hated and subsequently punished by the masculists.

Fluffies are vermin to masculists. They are seen by masculists as being immoral, parasitic, manslaving, vermin, to be wiped out, by being totally ignored by men, not even pumped and dumped, forcing their fluffie parasite genes to be removed from the gene pool, by being totally ignored, rotting on the shelf, utterly rejected by men who treat them as vermin, to be spat at.

Thus the rise of masculism is a major historical shift in gender roles. You could argue that the core idea of masculism, is that “Now that women can work, they must work!”

By establishing a masculist group in every high school, masculists can apply strong moral pressure on young women to FIP up, or pay a very heavy price, of not getting a man, hence will become manless, loveless, sexless, babyless, and as masculist ideas spread throughout the world, spat at, for being hated manslaving fluffie vermin. Masculists hate fluffies.

## 2. The Menfairing of the Gender Laws, especially in the Divorce Courts, and the Legislation of the Parer (Paternity Rejection Right).

Masculists have an even stronger hatred of the so called “fluffie feminist hypocrites” who have taken over the divorce courts, making them so toxic for men, that in many countries now, two thirds of young men under 35 refuse to marry, reject paternity, and spend their money on themselves, i.e. they have gone MGTOW (men going their own way), an important branch of the men’s lib movement - (the main difference between the masculists and the MGTOWs is that the latter are a-political, passive, who quietly walk away from marriage and paternity, preferring to devote their money and time on themselves, rather than being a manslave to a female, and facing a one chance in four of being financially massacred and having his life ruined as

a father, in a fluffie feminist hypocrite dominated divorce court system.

This one in four chance is so odious to men, such a shitty deal, that young men in their millions, are wiping their hands of marriage. If the gender laws are not soon menfaired, then probably within a decade, the percentage of young men rejecting marriage and paternity will be over 90%, which will be a catastrophe, because it implies that whole populations get wiped out within a mere generation.

Thus the masculists, who are a lot more political, and confrontational than the passively wimpy MGTOWs, see the fluffie feminist hypocrites who control the divorce courts as indirect genociders, so have to be stopped.

These fluffie feminists are seen by the masculists as being hypocrites because these women behave as feminists in the parliaments, pushing for equal rights for women, but behave as traditional fluffies in the divorce courts, expecting to treat men as traditional cash machines, expected to pay for women, so that these divorcing fluffie feminists can keep their cake and eat it too.

They want to have equal rights with men, but reject equal obligations with men, i.e. sharing equally the burden of earning the living, by bothering to FIP up and pull their financial weight, by getting a career competent education and becoming FIPs as adults, not expecting to parasite off the money and labor of a man.

For masculists, it is bad enough that these divorcing women are fluffies, but they are also feminists, and hence real hypocrites, so the masculists are pushing hard for the reform of the divorce courts, otherwise, young men will wipe out whole populations, by rejecting paternity in ever growing numbers.

The masculists argue however, that men are merely reacting to the toxicity of the divorce courts, as taken over by the fluffie feminist hypocrites, making marriage such a shitty deal for men, that most thinking men wash their hands of it.

In today's western countries, a divorcing father will lose his kids with a 90% probability, which are odds so high, that any thinking man will argue that it is not worth the risk to have kids at all. He will lose his house, so that his ex-wife can raise HER kids in it. He will lose half his stuff to her. He will be forced to pay her child support for kids he will barely see. If the ex-wife is a real fluffie, he often has to pay alimony to her for the rest of his life, with no legal nor moral obligation on her to get off her fat parasitic arse and FIP up, so that she remains parasiting off his money after the divorce, the way she did before the divorce.

The financial parasitism of fluffies is one of the main reasons why masculists say that women oppress men far worse than vice versa, because female oppression of men is so sustained, so deep, lasting decades.

Masculists push for the FIPping of women for many reasons. If nearly all women were real FIPs, then it would be much easier for masculists to achieve one of their major political goals, i.e. the legislation of the Parer (paternity rejection right), the lack of

which in today's world is the most blatant form of sexual discrimination that exists, and it is not against women, but against men.

Women have had the Marer (maternity rejection right, aka abortion right) since the 70s in many countries, but men have no such right, even today. Women have the right to reject an unwanted pregnancy, that they claim would screw up their lives, but men don't have the equivalent right, so millions of women lie to their boyfriends/husbands that they are on the pill, get pregnant, then expect their men to pay for babies that the men never wanted in the first place. This is a blatant example of the type of gender crimes that women commit daily against men, reinforcing the idea that women oppress men more than vice versa, but one needs to have one's masculist consciousness raised to see that.

With nearly all women FIPs, the Parer could be brought in much more easily, because a woman who gets sole custody of the kids after a divorce could afford to pay for them. However, since research shows that single mothers make poor parents, with the children much more likely to suffer from problems such as, alcoholism, teenage pregnancy, dropping out of high school, drugs, depression, etc, it is better for the kids to have joint custody of the kids, by default, after a divorce. Masculists teach women that kids are not the property of females. Half the DNA in children is from the father.

### 3. The Education of Men in Western Countries of the Toxicity of Divorce and hence Marriage, Pushing them not to Marry, not to be Fathers.

At the time of writing (April 2019) most men (and most women too) are not yet aware of masculist ideas, so the masculists face a huge task of educating the public, especially men, about how toxic the fluffie feminist hypocrites have made divorce, so advise young men not to marry, not to have kids, until the gender laws are men faired, as in the previous point.

Today's marriage is such a shitty deal for men, that all men in western countries ought to know this, so that they can reject marriage and paternity, thus putting enormous pressure on the gender politicians to menfair the gender laws, or society, i.e. both sexes, will start assassinating them for not doing so.

Men will hate the gender politicians for abusing men so badly in terms of the unfairness of the gender laws, and women, especially young women, will also hate them, because young women will not be able to have babies, because young men will continue to refuse to give them their sperm, due to the toxicity of the divorce courts, taken over by the hated fluffie feminist hypocrites.

Masculists will harangue young men, saying to them "Don't be a fool! Don't marry! Don't have kids! Don't take the risk of one chance in four of being financially crucified and having your life ruined in a fluffie feminist dominated divorce court system! Go

MGTOW! Spend your money on yourself! Don't be a manslave to a fluffie parasite. Put moral pressure on fluffies to FIP up, or force them to rot on the shelf. A fluffie can only be a fluffie if she can get her claws into some gullible manslave, but thanks to the masculists and the MGTOWs, the supply of such gullible manslaves is drying up. Don't ruin your life, by being a dumb, ignorant, gullible manslave! Liberate yourself, be masculist, and fight for the menfairing of the gender laws, otherwise whole populations will get wiped out!"

#### 4. Putting Strong Moral Pressure on Young Women to FIP up, or be Punished by not Getting a Man.

Masculists are very political. They aim to create masculist groups in every high school, every college, every university. They aim to create men's studies courses, push professors to write text books on men's issues, etc.

Masculists direct a lot of energy to the FIPping of women, since so many of men's gender issues will be solved once nearly all women have FIPped up. Men will be freed from manslavery. Once the divorce courts have been reformed, so that divorce is no longer a financial catastrophe for men, once custody of kids after a divorce is joint, by default, once alimony has been thrown out, etc, then men will be much more willing to be fathers again.

If women are FIPs, then it will be much less burdensome and much less risky for a man to marry and be a father. Many men

want to be fathers, but don't dare to, in today's world, because the hated fluffie feminist hypocrites have taken over the divorce courts, seeing men as cash machines to be robbed, abused, and exploited.

Fluffies will become increasingly less tolerated as masculist ideas spread throughout the world. Young men at high school will put enormous moral pressure on young women to study career competent majors, so that they do not expect to become fluffies as adults, and hence pay a heavy price of being manless.

Young men will imbibe masculist slogans, hurling abuse at young fluffies who chose to study fluffie crap majors, making them "fluffie crappers" in these young men's eyes. Young women will be socially and sexually rejected for not FIPping up, paying a heavy price, that the masculisted young men will force on them, treating such women as vermin, as hated, to be spat it.

##### 5. Giving Men Masculist Intellectual Tools to Hit Back at the Female Chauvinism of Monoconscious Feminism.

Universities are now very unpleasant places to be for young men, because in many of them, two thirds of the students are female, who have had their feminist consciousnesses raised, but who know nothing about masculism, who have not had their masculist consciousnesses raised, so are by definition, monoconscious, i.e. they are not biconscious, i.e. they have not had both their feminist AND their masculist consciousnesses

raised, so are gender biased, anger biased, being angry at men for the way men oppress women, but knowing nothing about the reverse case, because most women, and most feminists, haven't even heard of the label masculist, and masculism. They haven't the first clue what the masculists are talking about.

So, when men do learn about masculism, it can come as a real cathartic experience for them, giving them the intellectual tools to hold their own against feminazi harangues against men. These freshly masculisted men can then harangue back with masculist ideas, telling these university feminists, that women oppress men far worse than vice versa, and that if a feminist does not become biconscious, then she will be seen increasingly as being a bigot.

These university masculists can tell women that if they are not biconscious, then they risk not getting a man, because monoconscious feminists tend to be feminazi bitchy towards men, and hence much less likely to have a boyfriend, since men reject misandrist, male-dumping, feminazi bitches, like the plague, forcing these monoconscious feminazis to rot on the shelf, manless, babyless, who then become increasing bitter later in life, when they feel that they have missed out on life, as they have.

Masculism preaches/teaches to men that men are the superior sex, based on the scientific evidence, e.g. men are smarter than women by about 4 IQ points (YouTube Prof Rushton or Prof. Lynn on this), that men have a 10% higher IQ variance than

women, so that the morons and the geni are males, so that men have won 99% of the science Nobel prizes, that women have 10% smaller brains than men, due to women's hypergamy (i.e. the female instinct to mate with a superior male, to get his superior DNA for her kid, so that her kid has superior DNA to hers, and that is good for the species, so was inherited.

Thus the patriarchy, i.e. general male dominance across the board, is a side effect of women's sexual preference for men who were taller, bigger, stronger, fiercer and smarter than they were, so were more able to protect her against other males, and being smarter, made better hunters, who brought back the bacon with higher probability for her and her kids, who kept her at home and not running around chasing game far from the home cave.

Masculism gives men a type of religion that allows them to increase their sense of self-worth. They are better able to reject the feminazi claim that men are toxic, when in reality, it is women who are massively immoral, parasiting off the labor of men.

## 6. Restoring Men's Self Image by Using Science to Prove that Men are the Superior Sex.

One of the superior aspects of masculism compared to feminism is its much greater reliance on science to back up its claims, whereas most feminists are isscienate fairies (isscienate = unable to reason scientifically, due to ignorance of science, and fairy =

living in a fairyland, believing whatever you want to believe, without evidence, hence being no better than a religionist, a flat earther, or creationist).

Since masculism is more science based, it is stronger than feminism, and this fact can be used to great effect by men when hurling back abuse at the feminazis, intellectually crushing them with science based facts concerning women's genetic inferiority, as mentioned in the previous point.

Masculists can easily prick the insufferable arrogance and sense of entitlement of feminazis, by telling them in no uncertain terms, that women are the inferior sex, and that if these isscientate feminazis reject these ideas, then masculists can simply increase the level of their intellectual anger against them, turning up the ideological heat against the lies and fantasies of the feminazis.

## 7. Pushing Society to Become Biconscious so that Whole Populations Don't Get Wiped Out.

Women, with their 10% smaller brains, have a harder time to see the bigger picture. They benefit in the shorter term in the divorce courts, by being able to fleece her ex-husbands money, but are less likely to see the bigger, longer term picture, that they have made divorce so toxic for men, that indirectly they have become genociders, who have to be stopped, either by masculists destroying the credibility of feminism, by intellectually crushing it with contrary facts, or if that fails, simply with bullets, with

masculist soldiers going out into the streets and simply shooting the feminazis, then menfaring the gender laws, stripping women of their right to vote, so that men are prepared to be fathers again. Responsible males, masculist soldiers, will not tolerate that the feminazis, the fluffie feminist hypocrites, indirectly wipe out whole populations.

By teaching the planet masculist ideas, with masculists persuading journalists to spread masculist ideas to the millions, women will become biconscious. They will then be much more likely to vote with men to menfair the gender laws because they will feel a certain sympathy towards men, towards the ideas of the masculists, because they would have to be real sadists to totally reject everything the masculists say.

Thus it is in the self interest of the masculists to teach masculism to BOTH sexes, so that men can liberate themselves from manslavery, and women can become biconscious and vote with men to menfair the gender laws.

By making divorce far less toxic for men than it is today, then men, young men, will be much more likely to become fathers again, so that whole populations don't get wiped out, which is the trend today. Many western countries have made divorce so toxic for men, that that fact is the major reason why birth rates are so low in many countries, often around 1.3 children per women, instead of the replacement rate of 2.1

The journalists need to be told by the masculists, that the paternity rejection of the masculists and MGTOWs is the biggest story of our historical era, because it is wiping us out, and has to stop. To stop whole populations from being wiped out, masculism needs to be taught to the masses, and that is the job of the journalists, the media people. Society needs to be made biconscious, so the masculists need to put far more energy into persuading the journalists to present masculist ideas to the public.

#### 8. Restoring the Gender Political Pendulum, so that Society Can Heal from the Wounds Inflicted by Monoconscious Feminism.

Feminism has become a cancer. It is destroying relations between the sexes, causing millions of men to reject women, because women have become too toxic to be worth bothering with.

Feminism is now widespread throughout the western world, and billions of women have absorbed its ideas, but have not yet absorbed masculist ideas, so are inevitably gender biased, anger biased, being aware only of how men oppress women, but know nothing of the reverse case, which in reality is even worse, as explained above.

Young women who are influenced by feminist ideas are angry at men, distrust them, have made the universities and the workplace very unpleasant for men, so men really need their

own liberation, their own ideology, their own intellectual tools to hit back at the feminazis.

Masculism is that liberation, a set of ideas equivalent to feminism but for men, to liberate men from manslavery, from a biased, monoconscious feminism, that is ignorant of how women oppress men, and far worse than vice versa.

Once masculism is as well known in the western world as feminism, then that level of biconsciousness will cause relations between the sexes to be a lot healthier than they are today, which in today's world are becoming increasingly toxic.

The planet desperately needs masculism to restore the balance, to restore the swing of the gender political pendulum that has swung out too far, causing women to become misandrist bitches, which makes them more likely to be manless, hence babyless, so that we wipe ourselves out – not very bright, so common sense says that the world needs masculism.

## 9. Setting Up Masculist Groups in Every High School and University.

How to actually set up masculist groups in every high school? Probably the first step is to have many more masculist thinkers write masculist books, then approach the journalists, so that masculist ideas can reach the millions.

Next will be for masculist groups to be set up in every university and college, so that a political basis for masculist ideas can be formed. College masculists can then give big talks at high

schools, to high school audiences who have already heard about masculist ideas from the mass media and the internet. Thus it is likely that high school masculist groups, that then harangue female fluffies at high school to FIP up or be manless, will be founded by university masculist groups.

It is very important that masculist groups be set up at high schools, since most of the fluffie crapper damage is done at age 16, when three quarters of young women choose to become fluffie parasites by choosing to become fluffie crappers, choosing the soft option, i.e. the career incompetent majors that will make them fluffie parasites as adults, and hence will suffer greatly, by being rejected by men, and spat at for being fluffie manslaving vermin, hated by the masculists.

#### 10. Making Masculism as Big as Feminism, Telling the Other Half of the Gender Story.

It is time for masculism to have its place in the sun. Feminism has dominated gender politics for half a century, but feminism is only half the gender story. In reality, women oppress men far more than vice versa, and this idea needs to be spread across the world, so that women are motivated to FIP up, and so that young men are taught to reject fluffie parasites, forcing them to FIP up, or be babyless and spat at, living a manless, sexless, miserable existence.

We men have the power to do that to women, forcing them to become adults, to grow up, to take responsibility for their own

lives and not expect to parasite off a man, as a useless child woman.

Masculists see clearly the hypocrisy of fluffie feminists in the divorce courts, the genetic inferiority of women, as shown by science, the toxicity of the feminazis, etc. This masculist awareness needs to become widely accepted by the western world, so that our cultures can regain some measure of sanity, otherwise we wipe ourselves out, and that would be very dumb, because it is so avoidable.
